**FREDERICK-FIRESTONE FIRE PROTECTION DISTRICT  
CELEBRATES STATION 4 WITH GROUND BREAKING CEREMONY**

On the morning of Oct. 4, 2017, the Frederick-Firestone Fire Protection District celebrated its future Station 4 with a ground-breaking ceremony.

The new station, which will be located at 10706 WCR 7 in Frederick, will be the District's fourth station and is being built and designed by Mishler Construction and CR Architecture.

"We are very excited to be breaking ground today for our new Station 4. This day represents another milestone in our continued commitment to a legacy of providing the highest quality of service to the communities we serve," said Frederick-Firestone Fire District's Fire Chief Jeremy Young. "By building this new fire station, we are meeting the demands of our ever-growing communities. We are proud to be able to provide our citizens and our personnel a new safe and efficient fire station in 2018."

The new station is expected to be completed in the spring/summer of 2018 and will house an engine and an ambulance for emergency responses.
