

Annual Business Fire Safety Inspection Fact Sheet

What is an Annual Business Fire Safety Inspection?

Every business within the District will receive an annual Fire Safety Inspection from Frederick-Firestone Fire Protection District staff. The purpose of the inspection is to ensure that your business is kept in a safe condition for you, your employees and your customers.

Will I be notified?

Every business within the District will be notified the month before their inspection by letter. You will also receive a phone call from firefighters to schedule your inspection at a date and time that is convenient for you and your business.

What will the inspection consist of?

There are many common safety issues that we find when reviewing businesses in the area, and most are simply oversights that you may not consider. The Fire Safety Inspection will be completed using the 2012 edition of the International Fire Code adopted by the Town of Frederick and the Town of Firestone. When you receive your Fire Safety Inspection letter a month before your inspection it will also include a list of common violations that you can inspect and correct before we arrive.

What will happen if I have a fire code violation?

If a fire code violation(s) is identified during your Fire Safety Inspection, you will be given two-weeks to get the fire code violation(s) corrected. At the time of the first inspection, the second fire code re-inspection will be scheduled.

At the second Fire Safety Inspection, it will be verified that the fire code violation(s) was corrected. If the fire code violation(s) has not been corrected, another re-inspection will be scheduled at a fire code inspection rate of \$75.50. This inspection rate will continue with all additional inspections that have to be scheduled.

In the event the fire code violation continues, a municipal summons may be issued to ensure the fire code violation(s) are corrected.
